Detail

ADDED A SPLASH PAGE TO THE START OF ONBOARDING

Resilient organizations thrive through stressful times.

- The Splash Page will ease people into the system and before they're asked to input their information.

UPDATED THE JOURNEY PAGE

- All duplicated activities have been removed from the journey page. Additionally, all activities on the journey page now appear in a sequence of when the user has done the activity.

ADD COLOUR CODING TO THE CHECK-IN HISTORY

- The daily check-in colours will now reflect the colours of the stress barometer and resilience spectrum. It is now easier to notice patterns of resilience indicators within the system.

'READY TO COMPLETE' TEXT CHANGED TO 'READY TO REFLECT' ON SKILL INTERFACE BUTTON

- We have updated the text on the button in the skill learning section from 'Ready to Complete' to 'Ready to Reflect.' This aligns with the exercise statuses in the journey.

Before

After

ONBOARDING SLIDE SHOW

- We have created a 5 slide slideshow that appears as a model when users first enter AIR Space. The slideshow eases people into the home page after onboarding, helps to familiarize them with the different features, and clearly direct them to next steps for activation.

UPDATED CHECK IN HISTORY COLOURS WHEN STRESS LEVEL ARE 4 AND 6

- Check in stress/mood scores of 4 or 6 are now displayed as yellow, not green or red.

UPDATED ONBOARDING QUESTIONS

- We have added new onboarding questions to better understand users and eventually personalize their experience. Questions include:
 - Primary responsibility within your organization
 - What is your biggest stressor?
 - What do you hope to get out of AIR Space?

ALIGN MOOD CHECK-IN COLOR WITH CHECK IN HISTORY MOOD COLORS

- During the check-in, the mood icons now display a colour that is associated with the check-in history.

After

FIXED EXERCISES JOURNEY-RESOURCES ALIGNMENT BUG

- Fixed a bug in which the Journey and Practice exercise statuses were not aligned.

UPDATED SLIDESHOW

- Made tweaks to text on the onboarding slideshow to improve comprehension and engagement
